B.Sc [computer science and physics]:- 7.89 CGPA

2021-2024

Sayyid Akbar Husayni PU College, Kalaburagi

2021

Pre-University [PCMB] :- 65.33%

Govt Urdu High School, Lalgeri Brahampur ,Gulbarga

X:64.80%

2019

PROJECTS

Employee Record System

2026

Tech Stack: Python, Database Integration

- Built a Python application to create, update, search, and manage employee records with persistent database integration.
- Designed a clean CLI interface for HR-like workflows, focusing on data integrity and efficient CRUD operations.

Vehicle Breakdown Assistance Management System

2025

Tech Stack: Python, Django, HTML, CSS

- Full-stack web application enabling users to submit vehicle breakdown requests and connect with nearby service providers in real time.
- Implemented dynamic request management, location-based matching, and an intuitive user dashboard using Django and Python.

Stock Management System

2024

Tech Stack: Java

- Developed an inventory management application in Java to track stock levels, process updates, and generate availability reports.
